

Week 7 – Host your website on GitHub

Student number: 589932

Domain name (URL) of your website on GitHub:

<https://hiamken.github.io/>

Relevant screenshots + motivation:

The screenshot shows two stacked GitHub pages. The top part is the 'GitHub Pages' settings page for the repository `hiamken/hiamken.github.io`. It displays the URL `https://hiamken.github.io` and a 'Visit site' button. The bottom part is the repository overview for `hiamken/hiamken.github.io`, showing a list of files including `css`, `images`, `pdf`, `README.md`, `home.html`, `index.html`, `week1.html`, `week2.html`, `week3.html`, and `week4.html`. The repository has 2 commits and 0 stars.

Welcome to My Hobby Page

Hi, my name is Thuong and my number student is 589932. My hobby is working on Minecraft servers and developing plugins. I enjoy building custom systems, creating game mechanics, and managing online communities.

Below is an image related to my hobby:
